

## **Field Product Demonstrator / Technical Evaluator – South East England**

**Location:** Field based, South East England

**Salary:** Competitive + Bonus (OTE £50K+)

**Contract:** Full-time, Permanent

**Benefits:** 23 days holiday, pension, life insurance, profit related pay, employee assistance programme, company vehicle, workwear, and full product training.

***At Mobility in Motion, we provide more than just products – we provide independence!***

Our market-leading range of vehicle adaptations empowers people with mobility challenges to live life on their own terms.

### **Why join us?**

- A role with purpose – you'll make a direct impact on people's independence.
- Full training and support provided.
- A company vehicle equipped for demonstrations.
- Competitive package with excellent bonus potential (OTE £50K+).
- Growth opportunities in a market-leading, expanding business.

### **The Role**

We're now looking for a **Field Product Demonstrator / Technical Evaluator** to join our growing team, covering the South East of England.

This is a role with real impact. Every day, you'll work directly with customers – in their homes, at dealerships, or in mobility stores – to understand their unique needs and demonstrate how our products can transform their independence.

### **What you'll do:**

- Visit customers to assess their requirements and recommend the best solution.
- Demonstrate the benefits of our vehicle adaptations clearly and confidently.
- Deliver excellent customer care with empathy and understanding.
- Maintain accurate paperwork and records.
- Attend shows and exhibitions when needed.
- Learn and develop a strong technical knowledge of our products (full training provided).

### **What we're looking for:**

- A technical mindset – able to learn and understand product functionality.
- Strong communication and people skills – able to build confidence and trust.
- Empathy and a customer-first approach.
- Organised, self-motivated, and comfortable working independently.
- IT literate, with a full UK driving licence.
- Previous experience in mobility solutions, installations, or technical demonstrations would be an advantage, but not essential.

If you're looking for a rewarding, field-based role where no two days are the same – and where your work truly changes lives – we'd love to hear from you.

***Apply now and help us shape mobility for the future!***

**No agencies please.**
